

Add a grade

To add a grade is as easy as add a new column on the grid:

1. Press the  button at bottom-right:

2. Choose one of the 2 options:
 1. **New grades column**: to create a new column grades
 2. **Copy existing column**: to copy grades or columns from one group or term to another
3. If you pick “**New grades column**” you will see the next screen:

- **Title:** type a name for this column: activity, exam,... Use the calendar button to pick a date.
- **Subtitle:** type a subtitle for this column. You can pick subtitles from the list of subtitles created at menu -> **Academic Settings** ().
- **Grade type:** you must select the grade type you want to use to assess. See [this article](#) for more info.
- **Grade symbol:** select a grade symbol if you prefer show a symbol instead of a numeric value. Example: A, A+, B, F,... You can set the grade symbols from menu -> **Academic Settings** ().
- **Grade color:** you can use conditional colors, color

the grade according to its value. You can set the grade colors from **menu**  **Academic Settings** ().

- **Second chance of:** a grade can be the second chance of an already assessment made. It is used in auto calculated grades: the calculation process picks the second chance grade instead of the original.
- **Show percentage:** show the percentage of the grade.
- **Color:** the column color.
- **Hide:** hide the column. To show the column again click on the group name cell.
- **Protect:** lock the column to avoid modifications.
- **Quick comments:** to select a quickly a comment from a list of reused comments.

4. To **edit a grade** just **click** on the grade's cell.

Grade Types

You have several grade types to assess. You can add or edit grade types from **menu** -> **Academic Settings** ( icon), then go to **"GRADE TYPE"** tab:

GRADE SYMBOL	GRADE TYPE
	+
▼	Numeric
▼	Calculated
▼	Counter
▼	Free Text
▼	Icon
▼	Attendance
▼	List values
▼	Rubric

Press on  button to add a new grade type:

Add grade type

Grade type: Numeric ▼

Passed 5.0 Minimum value to pass

Name: My grade type

Minimum: 0.0

Maximum: 10.0

Decimals: 0 ▼

Rounding type: None ▼

CANCEL OK

- **Numeric:** used to type numerical grades.
- **Calculated:** to do auto calculated grades. To do averages and final scores. See this [this article](#) for more info.
- **Counter:** this grade type is used to increment or

decrement an integer value.

- **Free text:** you can enter any custom text associated to a numerical value.
- **Icon:** you can use icons as numerical grades.
- **Attendance:** you can calculate an score according to the student's attendance.
- **List values:** you can creat a list of values and select any item when scoring a student.
- **Rubrics:** you can asses with rubris. On the main grade screen, when editing the grade you will see the criterias.
